

**LVHN Health Plan (Choice Plus) Zero Dollar Generics, Preferred, Non-Preferred, Specialty, Step Therapy, Prior Authorization, Exclusion and Limited Distribution Medication List**

This list contains the names of medications, in alphabetical order, that are subject to one or more of the categories defined below. If your medication is not on this list, it is covered and is subject to standard copay structure of brand, generic or specialty.

**Definitions:**

**Zero Dollar Generics (ZD)**- Generic medications that are covered 100% by the health plan.

**Preferred (PD)**- A medication that will have a lesser copay or co-insurance than other medications used for the same condition

**Non-Preferred (NPD)**- A medication that will have a higher copay or co-insurance than other medications used for the same condition.

**Specialty (SP)**- A medication that treats a rare, chronic, or complex condition. Because of their high cost, they are subject to a higher copay. *Non-Preferred specialty medications are indicated by a ( \*\* ) and are subject to a higher copay.*

**Prior Authorization (PA)**- A medication that needs additional clinical documentation submitted to Populytics Care Management from your physician for it to be covered.

**Step Therapy (ST)**- Trying other medications in the same drug class first before the more expensive medication will be covered by the health plan.

**Excluded (EX)**- Medications that are not covered by the health plan because other lower-cost, clinically equivalent alternatives are available.

**Limited Distribution (LD)**- Medications that are not available at Health Spectrum Pharmacy. If your physician has prescribed one of these medications, contact Populytics Care Management at (484) 862-3506 for details about how to obtain them.

*This list is updated at minimum twice per year, but is subject to change without notice to accommodate the introduction, removal and availability of new drugs and clinical information.*
