A check will be performed of the U.S. Department of Health and Human Services Office of Inspector General ("OIG") list of excluded individuals, and the U.S. General Service Administration ("GSA") excluded parties' list system as part of the resident appointment process. Failure to follow these policies may be the cause for immediate dismissal.

5. Conditions of Appointment and Promotion Process.

5.1. Evaluation Promotion Process. The relevant Training Program will review the performance of the Resident and the relevant Residency Program Director will promote to the next appropriate level of training in the Resident's Training Program in accordance with accreditation requirements and the OGME's ***Evaluation and Promotion policy*** provided that the Resident meets the training requirements at the time of the recommendation. LVHN and Resident agree that while the duration of a training level is generally twelve (12) months, the Resident's training level will not be promoted until all the Training Program requirements for the current training level are satisfied.

**LEHIGH VALLEY HOSPITAL
GRADUATE TRAINING AGREEMENT**

Training Level Promotion by signing the offer letter issued by the Office of Graduate Medical Education no later than ten (10) calendar days after it is presented to the Resident. If Resident does not accept LVHN's offer of promotion to the next Training Level within ten (10) calendar days, then the offer is deemed to be withdrawn and may be withdrawn. Resident's signing of the offer letter does not prohibit LVHN from withdrawing the offer of promotion if LVHN determines, in its sole discretion, that Resident's performance is not satisfactory during the remainder of the then current Training Level, or Resident has not fulfilled and completed the requirements of their Residency as of the end of the then current Training Level.

- 5.3. Notice of Intent to Dismiss or Not Promote.** In the event that the Training Program intends to either dismiss the Resident and terminate this Graduate Training Agreement, or not promote to the next level of training, the Program Director shall provide the Resident with written notice of the intent to dismiss or not to promote at least three (3) months prior to the end of the current training level. If the primary reason for termination or non-promotion arises within that three (3) month period, then the Resident will be provided with as much written notice as circumstances reasonably allow.
- 5.4. Procedure for Appealing Determination to Dismiss or Not Promote.** If Resident is not offered training level promotion or receives notice of intent to dismiss and terminate this GRADUATE TRAINING AGREEMENT, Resident may appeal such a determination in accordance with the procedures set forth in the OGME's ***Due Process policy***. As that policy may be amended from time to time (policy and any policy updates, are available on the Resident Contracts, Policies and Procedures page on the LVHN residency and fellowship website.)
- 5.5. Recommendation to Repeat or Extend Training Level.** If LVHN determines, in its sole discretion, that the Resident has not completed the then current training level at a level of performance satisfactory to LVHN or has not fulfilled and completed the requirements of their Residency at that training level, then it may, in lieu of termination and at LVHN's sole discretion, provide the Resident the opportunity to repeat or extend the training level in question. If such an offer is made and accepted, then Resident and LVHN shall adjust and initial Section 2.0 of this Agreement and shall sign an adjusted offer letter noting that the duration of the training level is extended or repeated and that the term of the Graduate Training Agreement is extended to the new anticipated date of program completion. The Resident may appeal the decision according to the procedures outlined in the OGME's ***Due Process policy***, as that policy may be amended from time to time (policy and any policy updates, are available on the Resident Contracts, Policies and Procedures page on the LVHN residency and fellowship website.)
- 6. Discipline.** Resident may be subject to disciplinary adverse actions, as set forth in the OGME's ***Due Process policy***, as that policy may be amended from time to time, and any applicable LVHN Human Resource policy. A Resident may file an appeal concerning discipline or any complaint relevant to the residency program according to the procedures outlined for grievances in the Academic Affairs' ***Resident and Fellow Grievance policy***, as that policy may be amended from time to time (policy and any policy updates, are available on the Resident Contracts, Policies and Procedures page on the LVHN residency and fellowship website.)
- 7. Duty Hours Statement.** Both parties recognize that LVHN complies with work-hour limits promulgated by the applicable accrediting agency. LVHN recognizes that excessive duty hours extending over unreasonably long periods of time or onerous on-call schedules are not consistent with the primary objective of education or the efficient delivery of optimal patient care. Actual duty hours and schedules shall be determined by the relevant Residency Program Director (or designee) of the relevant

clinical department to which they are assigned, the institution and the relevant Training Program Director shall regularly monitor resident work hours. 8. Financial Support and other Benefits

- 8.1. Stipend.** Resident's stipend for services rendered during the current training level shall be at an annual rate described on the schedule offered at the time of initial presentation of the Graduate Training Agreement or at the time of training level promotion, payable in equal installments every two (2) weeks and in accordance with LVHN's payroll processes. LVHN may, at its sole discretion, increase the salary paid to Resident. LVHN may withhold from all payments to Resident those amounts which it is required to withhold by law including, without limitation, withholdings for federal, state, local and all other applicable taxes.

Professional Liability Insurance and Worker's Compensation Insurance.** LVHN will provide Resident participating in a Training Program with professional liability insurance provided generally by LVHN to its similarly situated residents through LVHN's self-funded insurance program. This coverage fulfills the requirements of the Commonwealth of Pennsylvania and shall conform in all respects to the requirements of the Medical Care Availability and Reduction of Error Act (Mcare/Act 13 of 2002). It should be noted that this coverage ONLY extends to occurrences associated with approved professional duties performed or medical professional responsibilities assumed in connection with his/her prescribed and supervised education/training program activities. The Resident shall be provided with the details of LVHN's professional liability coverage at the commencement of their training under LVHN auspices. Without limiting or modifying the foregoing, Resident acknowledges and agrees that, where coverage otherwise exists, coverage shall be limited to incidents occurring at LVHN or during LVHN sanctioned activities in its designated facilities during the time of Resident's appointment or reappointment to an LVHN Residency pursuant to this Agreement. Evidence of Coverage provided by this section shall be provided to Resident at their request. In addition, LVHN has a responsibility to its patients, its employees, and its community to ensure that all physicians and dentists, including Residents, are physically and mentally competent to meet their designated patient care responsibilities. It is both a Program Director and Institutional responsibility to provide guidance and support to each Resident throughout the course of their training program. LVHN is required by the ACGME to facilitate resident access to appropriate and confidential counseling, medical, and psychological support services. This includes written policies describing how impairment, including substance abuse, will be handled. OGME's *Physician Impairment policy* (policy and any policy updates, are available on the Resident Contracts, Policies and Procedures page on the LVHN residency and fellowship website) is intended to provide overall guidelines and direction to Program Directors on how to proceed when confronted with a potentially impaired Resident. It also shall serve as a mechanism to provide impaired Residents with direction regarding their continued employment and benefits if they remain in compliance with institutional requirements and standards governing impairment. In cases of suspected substance abuse, OGME's *Physician Impairment policy* shall be followed. Violations will be addressed as outlined in these policies referenced in this section. Resident will be required to undergo any including any required pre-employment screenings and any other testing as applicable under LVHN policies or by a monitoring agreement with the Physicians Health Program, or equivalent program, or treatment provider. In the event that impairment has been documented during the Training Program for which the Resident has not sought treatment or successfully rehabilitated), the Program Director may be obligated to report this in response to queries from state boards, hospital credentialing committees or subsequent employers depending on the nature of the impairment, the response to rehabilitation and the specific questions asked.
