

Information available on the Portal

- 1. What if I do not understand the medical information on the document?**
- 2. Why don't I see all my lab reports?**
- 3. Why are there numbers that look like codes in the report, such as in the lab result section?**
- 4. What if some of the information on the document on the portal is incorrect?**
- 5. Will I be able to see my inpatient and outpatient visits pull to the same account?**
- 6. How do I access the information on the portal?**

Information available on the Portal

- 1. What if I do not understand the medical information on the document?**

We want to keep you informed and involved in the care that you are receiving. Please speak to your physician and share this information along with any questions that you might have.

- 2. Why don't I see all my lab reports?**

Certain tests are not performed at Schuylkill Health. These tests are not viewable via the portal at this time.

- 3. Why are there numbers that look like codes in the report, such as in the lab result section?**

These codes allow different computer systems to "talk" to each other. The codes you see on your Summary of Care/Transfer of Care document standardize or translate meanings of tests and diagnosis so that different users of this information know the true meaning of the information being provided.

- 4. What if some of the information on the document on the portal is incorrect?**

Please print and complete the Records Request form found under the Forms button via the Patient Portal area at www.schuylkillhealth.com and send it to the HIPAA Privacy Officer for the appropriate hospital. The address is indicated on the form.

You can also write a letter and send it to the HIPAA Privacy Officer at the appropriate hospital.

Schuylkill Medical Center East Norwegian Street
Street
700 East Norwegian Street
Pottsville, PA 17901

Schuylkill Medical Center South Jackson
420 South Jackson Street
Pottsville, PA 17901

- 5. Will I be able to see my inpatient and outpatient visits pull to the same account?**

Yes, all visits will be visible via the portal. After a certain period of time, older accounts WILL drop off.

6. How do I access the information on the portal?

General information:

The User I.D. and password are case sensitive.

CASE SENSITIVE means that you must use the same capital/upper case or lower case letters as you did when you created the user id or password when you sign onto the portal. For example, if when you created your user id, you used SallyG, if you attempt to use any other case letters for signing in, it will not work, and i.e. sallyg or SALLYG will not work.

1. After creating your portal user id and password either via an email invitation or via the hospital computer system with assistance from a hospital staff member, you can access the portal via a link found at www.schuylkillhealth.com .
On the opening screen, enter your user ID and password.
2. On the next screen, you will see an option View Clinical Information, click on that option.

3. The next screen shows whose information you are authorized to access. This includes any account that your email address was entered as the Patient Portal Authorized Representative.

On this screen, there is an option at the top Pay Your Bill. At this time, Schuylkill does not offer this service. Click on the patient whose Clinical information you wish to access.

4. The next screen that comes up will show a list of accounts that are available for you to view clinical information. This would be your accounts or any account that your email address was entered as the Patient Portal Authorized Representative.

Select the account you would like to view by clicking on the document under the headings of View Summary of Care OR View Transfer/Referral of Care. The View Transfer/Referral of Care document will only be present if the patient's care was transferred to another provider of care-for example, if you were transferred to another hospital.
